

# GuardPulse Pilot Proposal

Generated June 20, 2026

## Proposed vendor

**Acme Fintech** — Fintech

We provide AI-powered fraud detection APIs for fintech and payment processors

| GuardPulse score | Badge       | Match relevance |
|------------------|-------------|-----------------|
| 76.4/100         | CONDITIONAL | 80%             |

Acme Fintech: same industry focus; covers fraud\_detection, payment\_processing (relevance 80%)

## Business problem

i need a vendor who can detect fraud payments

## Compliance breakdown

| Legal score | Tech score | Trust threshold |
|-------------|------------|-----------------|
| 67.5/100    | 79.0/100   | 80.0 (not met)  |

Audited document: sample\_policy.txt. Registered 2026-06-20.

## Verified capabilities

fraud detection, api integration, payment processing

## Proposed pilot terms

- 30-day sandboxed pilot with limited data scope, reviewed weekly
- No production PII shared until a signed NDA and DPA are in place
- Pilot success criteria defined jointly before kickoff
- GuardPulse compliance re-audit at pilot midpoint and close

## Next steps

1. Schedule an introductory call between both teams

2. Exchange NDA and data processing agreement
3. Define pilot scope, timeline, and success metrics
4. Kick off sandbox integration testing
